

# OvisLink

## GE2000NF

Fiber Optic Gigabit Ethernet Adapter

**OvisLink** GE-2000NF is designed for Gigabit Ethernet connection through fiber optic cables. It enables transmission distance of up to 550 meters with 50um multi-mode fiber. Fiber optic connection also protects transmission quality from any form of magnetic interferences.

### Specification

- Compliant with IEEE 802.3z 1000Base-SX standard
- Transmission speed at Gigabit
- SC Connectors
- Up to 550 meters of link distance using 50um multimode fiber
- Supports PCI bus v. 2.2 in either 64 or 32 Bit, 66 or 33Mhz
- Provide Gigabit speed connectivity over Fiber Optic Cables
- 1000 Mbps Ethernet speed
- Reduces CPU interrupts
- IEEE 802.3x Full Duplex capable
- Advanced Software support
  - Microsoft: Windows 2000 / 9x / ME / NT/ XP
  - Linux Kernel 2.2 & 2.4
  - Novell Netware Server 4.x, 5.x, 6.x
  - DOS ODI, Netware Client
  - Solaris
  - SCO Open Server
  - SCO UnixWare
  - FreeBSD
  - VxWorks
