

OvisLink

Live-FSH8G

1 x 1Gbps + 8 x 10/100Mbps Nway Gigabit Switch

Product Features/Specifications

With the OvisLink LIVE-FSH8G, it is no longer necessary to make compromise between price and performance. At a fraction of an ordinary Gigabit switch's price, it includes one Gigabit port and eight 10/100Mbps ports which offers easy and cost-effective migration from existing 10/100 Mbps Ethernet to 1000Mbps Gigabit network.

- 8-port 10/100Base-TX Nway, auto-sensing ports
- 1 x 1000Base-TX Gigabit port
- Transmit Gigabit over Cat. 5 wires
- Full duplex Ethernet IEEE 802.3x flow control
- Store-and-Forward Ethernet packet switch method
- Up to 1600Mbps maximum bandwidth in full duplex through 100Base-TX port
- 4K MAC Address table entries
- Embedded memory buffer
- Non-Blocking aggregate throughput
- Comprehensive LEDs for network status monitoring
- Safety/EMI: meet UL, FCC, CE, Korea MIC standards
